***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, 21-30 and 38-41 drawn to method and system, classified in class 705, subclass 14.
- II. Claims 16-20 and 31-37 drawn to method and system, classified in class 902, subclass 2.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination "I" has separate utility such as being used for auctions. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, or patentability requirements, restriction for examination purposes as indicated is proper.

A telephone call was made to the Attorney in the record John Uren at (360) 945-3411 on 8<sup>th</sup> July 2008. However, the phone number in the record is not in service, therefore, unable to request an oral election to the above restriction requirement via telephone call.
